

Mission

Soccha Data management is a social outsourcing company specialized in the management and treatment of data.

With operational offices in [Belgium](#) and [Madagascar](#) we offer our clients services like media monitoring and back office outsourcing.

Our goal is to support you in managing your [online and offline information flow](#) without therefore having to mobilize your internal resources.

Soccha Data Management is part of the Soccha Group, a [social enterprise](#) that tries to contribute to the professional integration of young unemployed people by giving them trainings and workopportunities.

Services

Media monitoring

We are specialized in analyzing, clipping and summarizing information in all its forms: newspapers, magazines, online media, radio and TV. Thanks to our experience and expertise, we are capable of supporting media monitoring companies in the processing of information as well as improving the speed and quality of their services.

Clients

Currently working with public and private companies, we actively keep on searching for companies that are willing to combine economical profitability with a social impact. Our competitive advantages as well as some references are listed hereunder.

— Price —

Thanks to our offshore office and our efficient cost structure we can offer attractive prices to our clients, in competition with traditional outsourcing companies.

— Quality —

The quality of our service is our priority, that is why we have put in place an advanced quality assurance system. Working with SMEs and companies from the BEL20, each one of our clients can testify the quality of our services.

— Flexibility —

Contrarily to the inflexibility of some companies, we quickly adapt to each demand of our clients. Whether in time or volume, we adjust to the wishes of the clients in order to deliver a service of high added-value.

— Social impact —

Soccha Data management is part of the Soccha Group, a social company that contributes to the employment of people in a precarious situation. By working with Soccha, each client generates a social impact and aids the development of more social business models.
